Finance

The finance major provides students with a broad understanding of financial decision-making, and also allows the flexibility for students to pursue specific areas of interest within finance. Courses cover topics such as investment decision making, corporate funding, valuation of securities, and management of financial institutions. Students have the option of concentrating in a functional area such as corporate finance, investments, financial institutions, real estate, or personal financial planning. Alternatively, students can select courses across several functional areas.

Do Research

Selecting a major that aligns with your interests, personality, skills, and abilities is an important part of your career development. The websites below will help you learn more about finance.
